Discuss the use of digital storytelling in the teaching and learning of language and critically report on one journal article that investigates the use of digital storytelling inthe language-learning context.

Digital storytelling is aided by various available technologies and software packages that enhance, develop, and produce it. Consequently, the way digital stories are created may vary according to this constantly changing digital technology ~~(Alexander, 2011)~~ and the wide variety of supporting software. Windows Movie Maker (https://www.windows-moviemaker.org/) is already installed on many computers and, if not, can be downloaded for free.

Draw freely and annotate PDFs with **ink, lines, arrows, squares, and circles.**
